Question 1

Not yet  
answeredMarked out of  
2.50🚩 Flag  
question

Assume that A is an invertible matrix and B is a matrix. Which of the following statement is always correct:

- ☐ a.  $A^{-1}B$  is equal to  $BA^{-1}$  if and only if  $AB$  is equal to  $BA$
- ☐ b.  $A^{-1}B$  is equal to  $BA^{-1}$
- ☐ c. All of the presented choices
- ☒ d.  $A^{-1}B$  is equal to  $BA^{-1}$  if and only if  $AB$  is equal to  $BA$  and B is invertible
- ☐ e.  $A^{-1}B$  is equal to  $BA^{-1}$  if and only if B is invertible
